USLS-IS BATCH 2003 · 25TH ALUMNI HOMECOMING · DECEMBER 16, 2028

The Golden Batch

WEBSITE ROLLOUT PLAN
2-Phase Approach
Committee Reference · February 2026

We need to show movement.

This document outlines the 2-phase rollout plan for thegoldenbatch2003.com. Phase 1 gets everyone in the door. Phase 2 builds everything behind the scenes before presenting the contribution framework through proper channels.

PHASE 1 · MUST

Launch Registration

March 1, 2026

Get everyone in the door. No money talk yet.

What goes live	Registration only. Batchmates receive their invite, create an account, and confirm their RSVP.
What they see	A welcome page with a "stay tuned for more" message. Clean, simple, no contribution or tier information visible.
What's NOT live	The new profile page (contribution tiers, payment uploads, progress tracking) stays admin-only until Phase 2 is ready.
The goal	Build the registered base. See who's engaged, which sections are responsive. This data informs Phase 2 decisions.
Overseas alumni	~30% of the batch are abroad. December 2028 means flights and leave planning. Getting them registered early is critical.
Committee goes first	The first ones to register will be the committee members. This ensures the system works smoothly before the batch comes in. Any new features coded after launch will be tested by the committee first (c/o Felie) before going live to everyone.

PHASE 2 · BEHIND THE SCENES

Contribution Rollout

While registrations come in

While Phase 1 registrations are coming in, the committee works on everything below. Nothing goes public until all steps are complete and the core has approved.

Step 1 **Finalize Tier Presentation Internally**

Align the committee on exact messaging and the "why" behind the numbers. Review the contribution tiers (Platinum, Gold, Silver, Flex), monthly breakdown, and the 80/20 funding allocation model. This is the foundation — everything downstream depends on the committee being aligned here first.

Step 2 **Draft the FAQ**

Anticipate the questions before they come. Cover: tier flexibility (can I change?), payment methods, where the money goes, "what if I can't afford it," installment options, the timeline, and what happens to their payments if things change. The FAQ should be ready to hand off to class reps as their primary reference.

Step 3 **Brief the Class Reps**

Small meeting or call with section representatives. Walk them through the tier structure, hand them the FAQ, and align on messaging so everyone says the same thing. Reps become the front line — they answer questions at their level so the committee isn't overwhelmed.

Step 4 **Release Contribution Framework to the Batch**

Now it goes out through the proper channel: Core → Class Reps → Batchmates. Reps are briefed, FAQ exists, and the committee is ready. No surprises.

Step 5 **Flip the New Profile Live**
